This will increase performance, allow instant connection, and be less time-consuming.</p> </div> <p data-bbox="456 1297 1000 1350">&lt;<a href="https://help.zoho.com/portal/en/kb/assist/user-guide/general/articles/preference#General">https://help.zoho.com/portal/en/kb/assist/user-guide/general/articles/preference#General</a>&gt;</p> <p data-bbox="456 1371 1451 1428">Zoho has a method for supporting multiple-party communications in a computer network including a server and at least one client computer.</p>

<b>US8627211 B2 Claim 1</b>	<b>Zoho</b>
<p>receiving a first cursor message at the server from the client computer, said first cursor message representing a change in a position of a first cursor associated with the client computer in response to user input received from a user of the client computer;</p>	<p><b>To access the laser pointer,</b></p> <ol style="list-style-type: none"> <li>1. Select the <b>Pointer</b> option to turn the cursor as a small colored dot on the slide.</li> </ol>  <ol style="list-style-type: none"> <li>2. Click and drag to point to the slide contents that you want to draw attention to.</li> </ol> <p>&lt;<a href="https://help.zoho.com/portal/en/kb/show/web-app/customize-and-play/articles/play-a-slideshow-zohoshow#Highlighter">https://help.zoho.com/portal/en/kb/show/web-app/customize-and-play/articles/play-a-slideshow-zohoshow#Highlighter</a>&gt;</p> <p>The reference describes receiving a first cursor message at the server from the client computer, said first cursor message representing a change in a position of a first cursor associated with the client computer in response to user input received from a user of the client computer.</p>

<b>US8627211 B2 Claim 1</b>	<b>Zoho</b>
<p>producing a first pointer message in response to said first cursor message, said first pointer message representing said change in said position of said first cursor provided by said first cursor message and being operable to cause display of a pointer on the client computer; and</p>	<p><b>To access the laser pointer,</b></p> <ol style="list-style-type: none"> <li>1. Select the <b>Pointer</b> option to turn the cursor as a small colored dot on the slide.</li> </ol>  <p>The screenshot shows a presentation slide with the title 'ARC METERS IN HEALTH CARE SECTOR'. It features three circular gauges: a purple one on the left, a green one in the center, and a red one on the right. Each gauge has a needle and a '20%' label. Below the gauges, text reads: 'The indicators show that 20% of the beds in the labour ward section are occupied in a multi-specialty hospital.' A small orange square with a dot is positioned above the green gauge. A red arrow points from a toolbar on the right towards the gauges. The toolbar contains various icons, including a pointer icon.</p> <ol style="list-style-type: none"> <li>2. Click and drag to point to the slide contents that you want to draw attention to.</li> </ol> <p><a href="https://help.zoho.com/portal/en/kb/show/web-app/customize-and-play/articles/play-a-slideshow-zohoshow#Highlighter">https://help.zoho.com/portal/en/kb/show/web-app/customize-and-play/articles/play-a-slideshow-zohoshow#Highlighter</a></p> <p>The reference describes producing a first pointer message in response to said first cursor message, said first pointer message representing said change in said position of said first cursor provided by said first cursor message and being operable to cause display of a pointer on the client computer.</p>
<b>US8627211 B2 Claim 1</b>	<b>Zoho</b>
<p>transmitting said first pointer message to said client computer.</p>	<p><b>To show remote cursor during a remote support session:</b></p> <p>Click on the checkbox beside <b>Show remote cursor</b> to <u>make the remote cursor visible during a remote support session.</u></p> <p><a href="https://help.zoho.com/portal/en/kb/assist/user-guide/general/articles/preference#General">https://help.zoho.com/portal/en/kb/assist/user-guide/general/articles/preference#General</a></p> <p>The reference describes transmitting said first pointer message to said client computer.</p>
